

CAREFREE COVID-19 UPDATE – December 10, 2020

COVID-19 UPDATE

First and foremost, we want to thank owners for your co-operation during these past few months in dealing with the COVID-19 pandemic.

Due to Alberta's high case numbers, the Provincial Government is taking aggressive action to protect our health system from being overwhelmed. Their mandatory restrictions apply province wide and will be in place until at least mid January.

In lieu of these restrictions, Carefree requests your help in the following areas:

- for the next four weeks, please limit your use of the resort.
- if you are feeling sick, or have any COVID symptoms, please stay home.
- masks are mandatory anywhere in the clubhouse.
- Clubhouse facilities will be closed periodically for cleaning.
- no more than one person, or family unit, shall be in the laundry room at any time.
- the sauna is closed.
- no indoor or outdoor gatherings.
- please practice physical distancing with other residents and staff.

We will continue to monitor Provincial and AHS regulations and adjust our protocols as required.

It is important that everyone continue to take personal steps to prevent the spread of COVID-19 and ensure it does not enter the gates of Carefree Resort.

PREVENT THE SPREAD

We strongly request that if you are showing any symptoms that you notify the Carefree office and return to your primary residence immediately, as rural health services are not equipped to handle an outbreak.

AHS MONITORING

AHS will continue to conduct periodic visits to the Resort to observe COVID precautions.

We encourage you to be kind to others during these difficult times. We would like to thank all owners, family members and guests for your understanding and precautionary efforts to prevent the COVID-19 virus from entering Carefree Resort!

If you have any questions regarding the COVID updates, please send an email to board@carefreeresort.com. We appreciate your time reading this update.

Carefree Board & Management

Stay Safe -- Stay Healthy – Stay Carefree!
