

CAREFREE COVID19 UPDATE:

Life will be different during this COVID-19 May long weekend at Carefree Resort. As the Province discusses opportunities to relaunch the economy, the Board of Directors continues to proactively communicate with Alberta Health Services (AHS) to see what services may become available.

It is important that everyone continue to take personal steps to prevent the spread of COVID-19 and ensure it does not enter the gates of Carefree Resort. Please protect your loved ones and the Carefree community by practicing physical distancing from other residents and staff while in the resort. Stay a minimum of 6 feet (*the length of an adult bicycle*) apart from others. Please feel free to remind others if you witness this is not being followed.

Key Reminders:

- All facilities are closed including the office, clubhouse, washrooms/showers, laundry, playgrounds/parks, pool, etc. until we receive notice from AHS to open.
 - Drop-off and pick-up boxes will be located outside the office for any required forms. Email is preferred or call the office in advance.
 - Social distancing does not end when you leave your primary residence and come to Carefree Resort.
 - 6-foot distancing from others that are not residents in your unit must be adhered to.
 - It is advised not to bring visitors to your lot during these restrictions.
 - We adhere to AHS recommendation that only one camping unit per site, therefore, no additional units will be authorized to be parked on Carefree lots.
 - Social gatherings, such as group bonfires, potlucks, happy hour, etc. are prohibited.
 - Please refrain from approaching Carefree staff. They will not be offended, but appreciative of your consideration for their safety.
 - The store will be open; however, some services may not be available. More details to follow in the upcoming Newsletter.
 - Access to beaches will be assessed by AHS closer to the bathing season.
- *You may wish to consider downloading and using the [ABTraceTogether mobile contact tracing app](#) when out in public or off your lot within the resort.

NOTE: We have been advised by **AHS that they will be doing periodic visits to the Resort** to observe COVID precautions. AHS also advised “it is the responsibility of the park to ensure staff are monitoring the facility to ensure pandemic procedures are being adhered to. The resort can have their own consequences – they can ask people to leave. **If mass gatherings and physical distancing is not being practiced, then AHS will escalate it to the medical officers of health to get the facility shut down.**” Obviously, this is not a welcomed outcome, but a possibility if some residents chose not to comply with AHS recommendations, thereby impacting all residents.

With the weather warming up and the long weekend quickly approaching, there are many outdoor activities Albertans can do safely while still following all public health orders.

Prevent the Spread

We strongly request that if you are showing any symptoms that you notify the Carefree office and return to your primary residence immediately, as rural health services are not equipped to handle an outbreak.

With the above-mentioned practices and precautions in place here at Carefree Resort, we look forward to continuing to provide as many operational services as permitted. Please be courteous to resort staff, they truly are doing their best during these difficult times.

We encourage you to be kind to others during these difficult times. We would like to thank all owners and family members for your understanding and precautionary efforts to prevent the COVID-19 virus from entering Carefree Resort!

If you have any questions regarding the COVID updates, please send an email to board@carefreeresort.com. We appreciate your time reading this update.

Carefree Board & Management

Stay Safe -- Stay Healthy – Stay Carefree!
