

CAREFREE COVID19 UPDATE – May 21, 2020:

The Board has been monitoring the Alberta Relaunch Strategy announcements regularly. This week under the [Guidance for Outdoor Activities](#) the province announced under “Permitted Activities” that playgrounds can reopen. For more information please review [Guidance for Playgrounds](#). As a result, Carefree staff will be removing the tape and allowing residents to make use of the available playgrounds. No special cleaning process will be applied by Carefree staff. ***Please continue to practice the required “Social Distancing” rules.***

IMPORTANT: NOTE TO PARENTS/GUARDIANS

Use of the playground structures is **solely at the discretion of parent/guardians**. It is recommended that hands are washed prior to using playground structures as well as immediately after.

New Playground Structure Update

Due to COVID-19 the delivery of the highly anticipated new playground structures to be located in Marina Park is delayed. We hope to receive it by end of June and then quickly arrange for it to be erected as soon as possible thereafter. We will provide additional updates within the weekly Carefree newsletter as we learn more.

If you have any questions regarding the COVID updates, please send an email to board@carefreeresort.com. We appreciate your time reading this update.

Carefree Board & Management

Stay Safe -- Stay Healthy – Stay Carefree!
